"Peace and Propaganda: An Insider's Look at the Fight for Israel on the Media Battlefield"

Gil Hoffman

Executive Director
HonestReporting

The mission of HonestReporting is to ensure truth, integrity and fairness and to combat ideological prejudice in journalism and the media, as it impacts Israel. We engage the next generation and educate the public to understand and value the above aspiration.

Join us as Mr. Hoffman explores how Israel navigates media narratives and public perception in global news coverage (of Israel.) This includes the strategies used to shape international discourse, counter misinformation, and promote Israel's position in geopolitical conflicts. The presentation delves into media bias, public relations efforts, and the role of journalists and advocacy groups in influencing public opinion about Israel and the Israeli-Palestinian conflict.
